

Mr. Gastley: I would like to enter into evidence a copy of Exhibit 8 being a copy of the Assessment Map No. 52, which shows the area marked, particularly the 3 acre area, Lot 5, shows the work church marked on it with the church symbol on it and this is according to the tax assessment people and the property is not assessed to anyone as of course the church does not pay taxes and as far as the assessment office is concerned it is church property.

(Enter into evidence a copy of Exhibit 8, Assessment Map No. 52)

Mr. Hammond: I would like to add that back in 1912 they had a big time there, they had a monument and I think the monument was dedicated to the church being one hundred years old they had it built and it was veiled and they had a big to do that day and they unveiled this monument. You cannot see the monument now as it was built back in the days when you used quick dry or lime to make mortar.

Mrs. Carter: The monument is not there any more as it was deteriorating and they eventually buried it as there was hardly anything left of it so they buried it.
